PROFESSIONAL PROFILE

UX/UI Project Lead and Digital Product Designer experienced in taking complex digital products from problem definition to delivery: discovery, user research, information architecture, interaction design, design systems, prototyping and usability validation. Specialized in AI product design, conversational UX, voice UX and data visualization, with strong stakeholder management and cross-functional collaboration in agile environments.

EXPERIENCE

Experienced Consultant - UX/UI Designer

Amaris Consulting | 07/2022 - Present

UX/UI consulting on complex digital products: discovery, UX research, design systems, interaction design and usability validation in cross-functional agile teams.

UX/UI Designer

Agata Data - Agencia Analitica de Datos | 05/2021 - 06/2022

Designed data-driven digital products: dashboards, data visualization and analytics-informed experiences for decision support.

UX/UI Designer

Monky Publicidad | 03/2019 - 05/2021

Designed websites and digital campaign experiences; evolved from visual design into user-centered product design practice.

UI Designer

Soft Dev Team | 02/2019 - 11/2019

Interface design for software products in a development-driven environment; close collaboration with engineering teams.
